Fibo | The company

We exist to take your bathroom to the next level

Fibo started out quite modestly as a small factory for wall panels from Norwegian wood. It became our mission to develop the walls which made wet room challenges easy.

Today, Fibo is the choice of professionals and we humbly take that as a proof of quality. Even if you just want to renovate a small bathroom, it is relevant to know that our business customers choose Fibo - when failure is not an option.

Our customer service have many years of experience and technical expertise. Trust us to solve your challenges, whether you want to renovate a small bathroom or design a facility to meet public demands.

Fibo Wall Panels | The benefits

8 reasons to make the smarter choice

- Easy and quick to install
- Shorter installation time
- Lower fitting cost
- Shorter down time
- No plaster board required

Fibo Wall Panels | The product

Easier & more cost efficient

We make installation easier and more cost efficient for our customers. The wall system can be installed up to 5 times faster than tiles. Forget backer boards, membrane, glue and grouting, this product can be fitted directly onto wooden or steel studs, or even directly onto existing walls.*

* Differs to different national building regulations

Fibo Aqualock

100% waterproof*

With our patented Aqualock click system, Fibo panels are perfect for both refurbishment or new construction projects. The system makes the product unique and 100% waterproof, simplifies the assembly and minimizes the joints. There's no need for water vapor barrier or other waterproof membrane behind the panels.

- High pressure laminate surface (membrane and vapour barrier)
- Specially developed core of 9mm 7 layer WBP birch plywood
- Patented Aqualock system, for invisible joints
- Hygienic, easy to clean and maintain
- Can be directly installed onto studs
- Only supplier in the world to offer 3D designs
- 15 years warranty

Design approval: D21569 No.00 + US.00
Patent approval: P24306 No.00 + US.00 + EP.00

* To make the surface waterproof, make sure to seal all corners, joints, profiles and edges.

Fibo | A smart way to transform your wall

Fibo | Inspirational design

An inspiration for your creativity

We combine nature and style.

Within the Fibo collection, you can explore a large range of colors and textures. The designs are developed in accordance with the latest trends in tile designs, finishes, and interior surfaces for walls.

From private homes to public application

Fibo is also an experienced supplier to installations in commercial and public buildings.

A safe, 100 % waterproof solution is perfect for high usage areas, where durability needs to go hand in hand with value for money. You can find Fibo in schools and hotels, as a design statement in restaurants, and in private homes. Trust us – a water fight in the family bathroom is no match at all.

Fibo | A smart way to transform your wall

Fibo | Wall panels for wet rooms

A wet room with the correct solution is prepared for everything

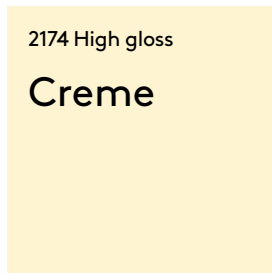

Wet rooms are the most complicated rooms in a building, and it demands a secure and confident choice. Fibo is the smart solution to this challenge.

- Easy and quick to install
- Low maintenance and easy to clean
- 100% waterproof surface, shower directly on the panels

Fibo is the perfect choice for wet rooms and other demanding areas. Fibo wall panels provide instant waterproof, hygienic walls in a large range of optional

colors and finishes. The watertight surface will last for many years, and you can still create your bathroom in just a few days.

Choose between a large range of colors & textures.
See www.fibosystemusa.com for complete collection.

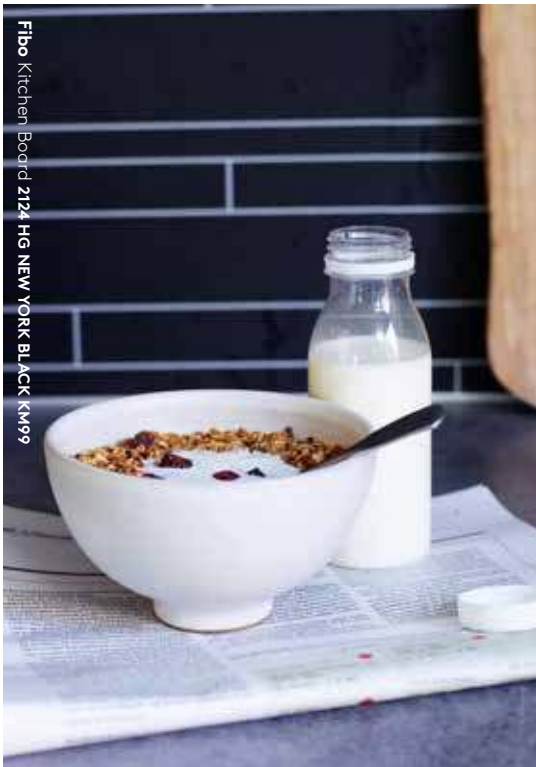

Fibo | Kitchen Board

Create your new kitchen in an afternoon

Use Fibo Kitchen Board as a backsplash between
your worktop and wall cabinets.

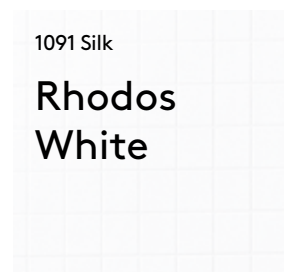

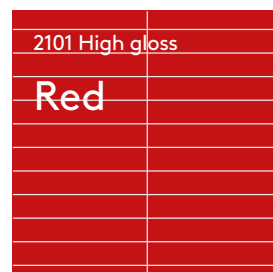

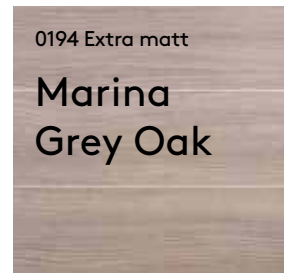

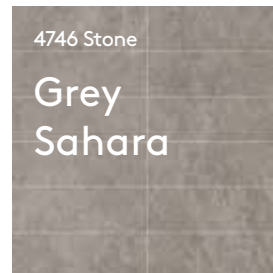

- Easy and quick to install
- Low maintenance and easy to clean
- Invisible joints

Fibo Kitchen Board is a safe and durable solution which is fast and easy to install.

The panels are resistant to water, easy to clean, and maintenance-free. Choose from a huge choice of different designs, and fit directly on studs or on existing kitchen walls according to our installation instructions.

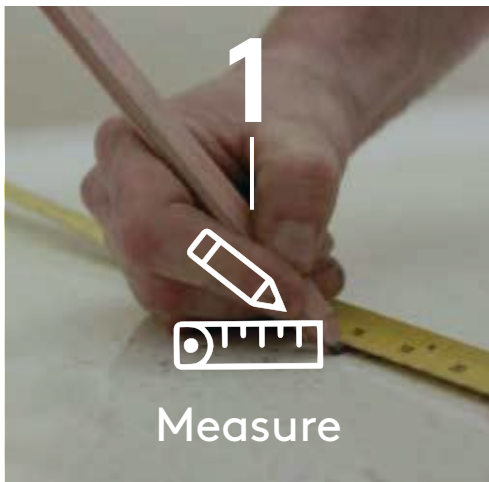

Choose between a large range of colors & textures. See www.fibosystemusa.com for complete collection.

Fibo | Safe and easy installation

Five times faster than tiles. About a hundred times easier.

According to calculations, a Fibo installation is at least five times faster than an equivalent ceramic tile installation. You save the most time during preparation work, as Fibo is installed directly on wooden or steel studs, as well as directly on various types of existing walls.

To make the surface waterproof, make sure to seal all corners, joints, profiles and edges.

Fibo | Accessories & profiles

Correct accessories are half the job

Fibo offers a complete system to ensure optimal results and make the installation as easy as possible for you. The customized accessories ensure a perfect and safe result.

Fibo | Waterproof wall system

Technology since 1952

Since 1952, we have combined our legacy of Scandinavian nature and style with our ability to consider limitations as our next chance to innovate. Fibo has delivered hundreds of millions of square feet over the years for wet rooms and other demanding rooms.

Today, Fibo is the leading supplier of high quality waterproof wall panel systems, and can be purchased throughout Scandinavia, Northern Europe, North America and New Zealand. We are creating interior technology for the times to come. We believe

that the room of opportunity always is the most important room. Whether your challenges are of the technical, economical or the creative sort - Fibo will always find the smarter way to transform your wall.

Fibo | Sustainability

We want to take low emissions to the higher level

We know that responsible and sustainable development makes good business sense. We carefully select suppliers that comply with our strict recycling requirements at all stages. Our commitment to sustainability is our ambition in everything we do.

Fibo | A smart way to transform your wall

Our eco-friendly wall systems are made from PEFC-certified wood. Fibo have an Environmental Product Declaration (EPD) from 2014. The EPD is based on the principles and rules contained in the international ISO 14025 standard, which ensures worldwide acceptance. In 2016, we invested in a new production line, developed to make a major reduction in our environmental impact.
